In all of the tables in this document, both the pre-2009 NQF Level and the NQF Level is shown. In the text (purpose statements, qualification rules, etc), any references to NQF Levels are to the pre-2009 levels unless specifically stated otherwise.

This unit standard does not replace any other unit standard and is not replaced by any other unit standard.

PURPOSE OF THE UNIT STANDARD

The skills, values and knowledge reflected in this unit standard are required by people in the field of manufacturing and engineering.

The learning outcomes in this unit standard also contribute to the exit level outcomes required for various manufacturing and engineering qualifications.

Qualifying learners can select and use the appropriate fire fighting equipment to extinguish or control fires in the workplace.

LEARNING ASSUMED TO BE IN PLACE AND RECOGNITION OF PRIOR LEARNING

This unit standard has been designed as part of a progression. It is one of a series of unit standards for safety, health and environmental protection in the field of manufacturing and engineering.

UNIT STANDARD RANGE

The scope and level of this unit standard is determined by the ranges as indicated under the specific outcomes.

Specific Outcomes and Assessment Criteria:

SPECIFIC OUTCOME 1

Discuss and explain procedures for dealing with fires in the workplace

ASSESSMENT CRITERIA

ASSESSMENT CRITERION 1

1. An understanding of procedures for dealing with fires in the workplace is demonstrated.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
- Methods of fire transmission

- Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 2

2. Fires are contained and/or extinguished.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:
 - Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 3

3. The fire and/or the site are handed over to the appropriate personnel.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated

4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 4

4. Reports on status of fire and equipment are completed.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

SPECIFIC OUTCOME 2

Identify the type of fire, its context and select the appropriate fire fighting procedure

OUTCOME RANGE

Types of fires include organic materials/fibre materials, flammable liquids and gases, live electrical equipment, combustible metal fires.

Fire contexts include the nature of the area where the fire is, adjacent hazards, structural materials.

Methods of fire transmission include conduction, induction, radiation.

Combustible hazards include combustible materials and temperatures, compressed containers, electrical equipment, structure and layout of site.

ASSESSMENT CRITERIA

ASSESSMENT CRITERION 1

1. An understanding of procedures for dealing with fires in the workplace is demonstrated.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures from fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 2

2. Fires are contained and/or extinguished.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked

3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 3

3. The fire and/or the site are handed over to the appropriate personnel.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 4

4. Reports on status of fire and equipment are completed.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

SPECIFIC OUTCOME 3

Identify, select and check appropriate fire fighting and safety equipment

OUTCOME RANGE

Fire fighting equipment includes hoses, extinguishers and buckets.

Safety equipment includes breathing apparatus, fire blankets, protective clothing for fire fights, heat shields.

ASSESSMENT CRITERIA

ASSESSMENT CRITERION 1

1. An understanding of procedures for dealing with fires in the workplace is demonstrated.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures

5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 2

2. Fires are contained and/or extinguished.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 3

3. The fire and/or the site are handed over to the appropriate personnel.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 4

4. Reports on status of fire and equipment are completed.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
- Methods of fire transmission
- Types of fires
- Selection of fire fighting procedures for particular fires
- Prevention of fires
- Types, uses and operation of fire fighting and safety equipment
- Retreat procedures form fire
- Issues to consider when monitoring fire and site

- Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

SPECIFIC OUTCOME 4

Fight containable/extinguishable fires

OUTCOME NOTES

- Monitor and respond to changes in the fire.

OUTCOME RANGE

Changes in a fire include changes in wind direction, backdraft, ventilation, release of hazardous substances, radiation, or as a result of incorrect application of fire fighting procedures.

Fire monitoring issues include status of fire, status of fire fighting equipment, controlling access, structural damage and equipment retrieval, fire fighting casualties.

ASSESSMENT CRITERIA

ASSESSMENT CRITERION 1

1. An understanding of procedures for dealing with fires in the workplace is demonstrated.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures from fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 2

2. Fires are contained and/or extinguished.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 3

3. The fire and/or the site are handed over to the appropriate personnel.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
- Methods of fire transmission
- Types of fires
- Selection of fire fighting procedures for particular fires
- Prevention of fires
- Types, uses and operation of fire fighting and safety equipment

- Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 4

4. Reports on status of fire and equipment are completed.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

SPECIFIC OUTCOME 5

Retreat from fire site and hand over to appropriate personnel

ASSESSMENT CRITERIA

ASSESSMENT CRITERION 1

1. An understanding of procedures for dealing with fires in the workplace is demonstrated.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

< Applicable chemistry of fires

- Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 2

2. Fires are contained and/or extinguished.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
- Methods of fire transmission
- Types of fires
- Selection of fire fighting procedures for particular fires
- Prevention of fires
- Types, uses and operation of fire fighting and safety equipment
- Retreat procedures form fire
- Issues to consider when monitoring fire and site
- Handover procedures

- Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 3

3. The fire and/or the site are handed over to the appropriate personnel.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to 'what if' and 'why' questions covering:
 - Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures from fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

ASSESSMENT CRITERION 4

4. Reports on status of fire and equipment are completed.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to 'what if' and 'why' questions covering:
 - Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires

- Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task

SPECIFIC OUTCOME 6

Report/record status of fire and equipment

ASSESSMENT CRITERIA

ASSESSMENT CRITERION 1

1. An understanding of procedures for dealing with fires in the workplace is demonstrated.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task.

ASSESSMENT CRITERION 2

2. Fires are contained and/or extinguished.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures form fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task.

ASSESSMENT CRITERION 3

3. The fire and/or the site are handed over to the appropriate personnel.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
- Methods of fire transmission
- Types of fires
- Selection of fire fighting procedures for particular fires
- Prevention of fires
- Types, uses and operation of fire fighting and safety equipment
- Retreat procedures form fire
- Issues to consider when monitoring fire and site

- Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task.

ASSESSMENT CRITERION 4

4. Reports on status of fire and equipment are completed.

ASSESSMENT CRITERION NOTES

Indicators

1. The nature of the fire is correctly identified and its context correctly assessed
2. Appropriate fire fighting and safety equipment is selected and checked
3. Hazards are isolated
4. Fire is approached according to procedures
5. Changes in the fire are monitored and responded to
6. Retreat from the fire site is undertaken according to appropriate retreat procedures for the type of fire

Understanding confirmed

1. Respond to `what if` and `why` questions covering:

- Applicable chemistry of fires
 - Methods of fire transmission
 - Types of fires
 - Selection of fire fighting procedures for particular fires
 - Prevention of fires
 - Types, uses and operation of fire fighting and safety equipment
 - Retreat procedures from fire
 - Issues to consider when monitoring fire and site
 - Handover procedures
 - Reporting and recording requirements
2. Explain the implications of not adhering to sequence of activities and operations as described in the specific outcomes and making decisions inappropriate to the task.

UNIT STANDARD ACCREDITATION AND MODERATION OPTIONS

The assessment will be governed by the policies and guidelines of the relevant Education and Training Quality Assurance Body (ETQA) who has jurisdiction over this field of learning. The assessor will be accredited and have a technical qualification in this learning area. The learner can be assessed in the language of his/her choice although if s/he has to report incidents or conditions to someone else, s/he will be assessed on his/her ability to report in the language commonly used in the working environment. The learner will be assessed in the workplace or by simulation, but can submit documents, projects, test results and assignments that are not produced in the workplace or by the RPL process. The learner can be assessed against this unit standard to obtain credits or as part of an integrated assessment for a qualification.

UNIT STANDARD ESSENTIAL EMBEDDED KNOWLEDGE

1. Names & functions of:

- Fire fighting equipment
 - Symbols on fire fighting equipment
 - Safety equipment
2. Purpose of:
- Identifying the nature of a fire
3. Attributes, descriptions, characteristics & properties:
- Ideal condition of fire fighting equipment
 - Factors that change the nature of a fire
4. Cause and effect, implications of:
- Implications of using defective fire fighting equipment
 - Implications of failing to correctly detect the nature and context of a fire
5. Procedures and techniques:
- Fire fighting methods
 - Procedures for monitoring a fire
 - Retreat procedures for all kinds of fires
 - Handover procedures
 - Recording and reporting procedures
6. Regulations, legislation, agreements, policies, standards:
- Applicable safety, health and environmental protection legislation
 - Applicable organisational policies and procedures
7. Theory: rules, principles, laws:
- Applicable chemistry of fire: the triangle of combustion, elimination factors, transmission or spread
8. Relationships, systems:
- Relationship between the nature and context of a fire and the fire fighting technique applied

UNIT STANDARD DEVELOPMENTAL OUTCOME

N/A

UNIT STANDARD LINKAGES

N/A

Critical Cross-field Outcomes (CCFO):

UNIT STANDARD CCFO IDENTIFYING

Identify and solve problems:

- Related to identifying the nature and context of a fire

UNIT STANDARD CCFO WORKING

Work effectively with others:

- To fight fires

UNIT STANDARD CCFO ORGANISING

Organise and manage myself and my activities:

- To ensure that all required fire fighting equipment is at hand when needed

UNIT STANDARD CCFO COLLECTING

Collect, analyse, organise and critically evaluate information:

- Related to compiling a report on the status of the fire and fire fighting equipment

UNIT STANDARD CCFO COMMUNICATING

Communicate effectively:

- When handing over the fire and/or site to emergency personnel

UNIT STANDARD CCFO SCIENCE

Use science and technology effectively and critically:

- Apply chemistry of fire concepts

UNIT STANDARD CCFO DEMONSTRATING

Demonstrate an understanding of the world as a set of related systems:

- Explain the relationship between the nature and context of a fire and the fire fighting technique applied

UNIT STANDARD ASSESSOR CRITERIA

N/A

REREGISTRATION HISTORY

As per the SAQA Board decision/s at that time, this unit standard was Reregistered in 2012; 2015.

UNIT STANDARD NOTES

This Unit Standard was originally registered on 3 December 2003 under SAQA decision number 0151/03. It has been re-registered on 11 February 2004 under SAQA 2552/04.

QUALIFICATIONS UTILISING THIS UNIT STANDARD:

	ID	QUALIFICATION TITLE	PRE-2009 NQF LEVEL	NQF LEVEL	STATUS	END DATE	PRIMARY OR DELEGATED QA FUNCTIONARY
Core	48890	National Certificate: Chemical Liquid, Gas Storage and Transfer	Level 2	NQF Level 02	Passed the End Date - Status was "Registered"	2007-10-13	CHIETA
Core	49773	National Certificate: Construction and Maintenance of Overhead Track Equipment	Level 2	NQF Level 02	Reregistered	2023-06-30	TETA

PROVIDERS CURRENTLY ACCREDITED TO OFFER THIS UNIT STANDARD:

This information shows the current accreditations (i.e. those not past their accreditation end dates), and is the most complete record available to SAQA as of today. Some Primary or Delegated Quality Assurance Functionaries have a lag in their recording systems for provider accreditation, in turn leading to a lag in notifying SAQA of all the providers that they have accredited to offer qualifications and unit standards, as well as any extensions to accreditation end dates. The relevant Primary or Delegated Quality Assurance Functionary should be notified if a record appears to be missing from here.
